

**INTERNAL RULES OF
THE BOARD OF DIRECTORS OF ATOS**

**adopted by resolution of the Board of Directors
dated 28 July 2009,**

**last modified by resolution of the Board of Directors
dated March 26, 2026**

Introduction

The Board of Directors of Atos SE (the “**Company**”) drew up the present Internal Rules, which describe the composition, tasks and rules governing the operations of the Board of Directors, in addition to the by-laws of the Company.

The present Internal Rules are not part of the by-laws of the Company. They shall not be applicable to third parties. Third parties or shareholders shall not be able to hold these Rules against Company or its legal representatives.

The present Internal Rules shall apply to each director as well as to all participants of the Board of Directors’ meetings.

Where a director is a legal person, the provisions of the Internal Rules shall apply to its permanent representative as if he or she were director acting in his or her own name, and this without prejudice to the legal person’s obligation to comply with the obligations set out in the present Rules.

ARTICLE 1 – COMPOSITION

1.1 General provisions

The Company shall be governed by a Board of Directors made up of eight (8) members, nominated by the annual shareholders’ general meeting, in addition to any employee representatives appointed in accordance with the law.

Throughout the entire duration of his or her mandate, each director (with the exception of the directors representing the employees and the directors representing the employee shareholders) shall own at least five hundred (500) shares and hold them in the registered form (*au nominatif*). If, when taking up his or her functions, the director does not own the required shares, or ceases ownership of such shares during his or her mandate, he or she shall be automatically considered as having resigned if the situation is not remedied within a delay set by the by-laws.

The duration of the term of office for the directors, whether real or legal person, shall be three (3) years, subject to provisions concerning the age limit. Directors shall be re-eligible (to hold office) subject to the same provisions. The duties of a director shall end at the close of the shareholders’ ordinary general meeting ruling on the accounts for the preceding financial year and being held during the year in which the term of office of such director expires.

No one may be appointed director if, having exceeded the age of 70, his or her nomination would have such an effect as to bring the number of directors exceeding such age to more than one-third of the members of the Board of Directors.

If, due to the fact that a director in office has reached the age of 70, the above-mentioned proportion of one-third has been exceeded, the oldest director shall be considered to have resigned automatically at the close of the following ordinary general meeting.

In case of vacancy, by death or resignation of one or more directors, the Board of Directors may proceed with making temporary appointments, subject to ratification by the following ordinary general meeting, within the limits and conditions provided for by the law. Should ratification not occur, the resolutions passed and actions taken during this period remain valid.

Where vacancy occurs by death, resignation or dismissal of a director, the director appointed by the shareholders’ general meeting shall only fill such vacancy during the remainder of the term of office of his or her predecessor.

If the number of directors falls below the minimum threshold set by the by-laws or the law, the remaining members must complete the Board in accordance with legal and regulatory conditions.

The Board of Directors should consider what the desirable balance of its membership and that of the Board committees should be, particularly in terms of diversity (gender representation, nationalities, age, qualifications, professional experience, etc.). It should make public in the report on corporate governance a description of the diversity policy applied to members of the Board of Directors as well as a description of the objectives of this policy, its implementation measures and the results achieved in the past financial year.

The Board of Directors will be composed of directors of each gender, in accordance with legal provisions.

The directors must meet customary professional standards, which will be assessed by the nomination and governance committee.

When presenting an appointment or renewal of a director during the general meeting, the meeting notice addressed to the shareholders shall include a biographical note describing the major points of the candidates' curriculum vitae, the reasons for proposing his or her appointment to the shareholders' meeting, as well as the number of Company shares personally owned by each candidate.

1.2 Directors representing the employees and the employee shareholders

1.2.1 Director representing the employees

To the extent permitted by law, one (1) or two (2) director(s) representing the employees is/are appointed pursuant to the terms and conditions set by Article 16.1 of the Company by-laws.

1.2.2 Director representing the employee shareholders

To the extent permitted by law, a director representing the employee shareholders shall be appointed during the shareholders' ordinary general meeting according to the methods provided for by Article 16.2 of the Company's by-laws.

1.3 Independent directors

The majority of Board members (at least five) will be independent directors.

A director shall be deemed to be independent if he or she has no relationship of any kind with the Company, its Group or its management that might compromise his or her freedom of judgement.

It is specified, for the purposes of the present Internal Rules, that the Group shall be understood as any company or entity controlling the Company, any company or entity controlled by the Company or under control shared by the Company. The term "control" shall be defined according to Article L. 233-3 of the French Commercial Code.

The criteria to be evaluated by the nomination and governance committee and the Board of Directors in order to qualify an independent director and to prevent any risks of conflict of interest between the director and the management, the Company or its Group, shall be the following:

- a) not to be and not to have been during the course of the previous five years:
 - an employee or executive officer of the Company;
 - an employee, executive officer of a company or a director of a company consolidated within the Company;

- an employee, executive officer or a director of the company's parent company or a company consolidated within this parent;
- b) not to be an executive officer of a company in which the Company holds a directorship, directly or indirectly, or in which an employee appointed as such or an executive officer of the company (currently in office or having held such office during the last five years) is a director;
- c) not to be a customer, a supplier, a commercial banker or investment banker or consultant (or be linked directly or indirectly to these persons):
 - that is material to the Company or its Group, or
 - for a significant part of whose business the Company or its Group accounts.

It is specified that the evaluation of how significant the relationship is with the Company or its Group must be debated by the Board and that the criteria that led to this evaluation must be explicitly stated in the report on corporate governance;

- d) not to be related by close family ties to a Company officer;
- e) not to have been, within the five previous years, an auditor of the Company;
- f) not to have been a director of the Company for more than twelve years, it being specified that the loss of the status of independent director shall only occur on the date at which this period of twelve years is reached;
- g) not to be or not to represent or be appointed upon proposal of a shareholder of the Company or its parent company holding more than 10% of the capital or the voting rights of the Company, it being specified that for this last criteria, a director may nevertheless be considered independent provided he or she does not take part in the control of the Company and that the Board of Directors, following the nomination and governance committee report, will have examined the qualification as an independent, taking into account the composition of the Company's capital and the potential existence of a conflict of interest.

The Board of Directors may, however, consider that even though a director may fulfill the criteria described above, he or she does not qualify as an independent, considering his or her particular situation, or that of the Company or its shareholders, or for any other reason. On the contrary, the Board may consider that a director who does not fulfill the above-mentioned criteria is, however, an independent director. In this case, the report referred to in Article L. 225-37 of the French Commercial Code shall indicate, for the director in question, the criteria from which he or she has been exempted and the grounds for such exemption.

The qualification of an independent director shall be discussed annually by the nomination and governance committee and, upon its proposal, examined annually on a case-by-case basis by the Board of Directors, with regards to the criteria described above, before the publication of the annual report. The qualification shall also be discussed at each appointment of a new director and when directors' terms of office are renewed. The conclusions of the Board of Directors following each examination shall be made known to the shareholders in the annual report and during the general meeting when new directors are appointed.

In particular, as far as sustainability matters are concerned, the Board of Directors oversees the impacts, risks and opportunities identified by the Company and the setting of targets related to these material impacts, risks and opportunities, and monitors progress towards them.

With regard to relations with third parties, the Company is bound by the actions of the Board of Directors which fall outside of the Company purpose, unless it can prove that the third party was aware that the action exceeded this purpose or that the third party could not be unaware of it considering the circumstances, excluding the fact that the mere publication of the by-laws would be sufficient to constitute such proof.

The Board of Directors shall proceed with any audits and verifications that it deems appropriate.

The Board of Directors ensures the implementation of a mechanism to prevent and detect corruption and influence peddling.

The Board of Directors shall determine for a duration of one (1) year, either a total amount within which the Chief Executive Officer may make commitments on behalf of the Company in the form of sureties, endorsements or guarantees, or an amount of exposure above which each of the above-mentioned commitments may not be made; any commitment exceeding the overall limit or the maximum exposure limit determined for each commitment, as applicable, must receive special authorization from the Board of Directors.

Each director shall receive all information that is necessary for accomplishing his or her task and may have the Chairman or Chief Executive Officer provide all the documents necessary for the accomplishment of his or her task.

The Board of Directors may, according to the provisions of Article 10 hereafter, give to one or more of its members or to third parties, whether shareholders or not, any special powers of attorney for one or more specific purposes, taking into account the competence and experience of such persons.

In the event of a breach of duty by a member of the Board of Directors or if the Chairman has serious grounds for believing that a member of the Board of Directors is violating his obligations or is no longer able to carry out his office or duties, the Board of Directors, at the initiative of the Chairman, shall hear the individual concerned about the aforementioned situation and may, if necessary and upon the nomination and governance committee's report, request that the member draws the necessary conclusions of such a situation, or take any appropriate measure.

Each Board member is regularly asked to commit in writing about his/her obligation of confidentiality and loyalty, notably in view of assessing his/her ability to participate to sensitive discussions. Failure to execute such written commitment shall be raised to the nomination and governance committee in order to assess the appropriate consequences, as mentioned above.

This article does not prejudice any potential civil remedies that may be pursued.

Furthermore, the permanent representative of a director who is a legal person may communicate the acquired Information to the corporate officer(s) of such legal person and to the advisers of such a person. It shall be specified however that:

In addition to this obligation of confidentiality, each director (or, as the case may be, the censor(s)) shall undertake not to publicly express themselves, in their official capacity as a director of the Company, on any subject concerning the Company and its Group, whether or not linked to the deliberations of the Board of Directors, unless previously approved by the chairman of the Board of Directors.

Schedule 1 – Charter of the Atos SE Board of Directors

CHARTER OF THE ATOS SE BOARD OF DIRECTORS

**adopted by resolution of the Board of Directors
dated 28 July 2009**

**modified by resolution of the Board of Directors
dated 1st July 2011**

**modified by resolution of the Board of Directors
dated December 18, 2017**

Introduction

Atos SE (the “Company”) gives great importance to the principle that its business must be conducted both profitably and responsibly. Consequently, the goal of this Charter of the Board of Directors of the Company is to remind each director of the Company the necessity to act honestly, impartially and with integrity in his or her day-to-day business. In addition, and according to the principles of good governance, this Charter of the Directors of the Company specifies the duties and obligations of each director.

Article 1 – Corporate Interest

Each director represents the whole of the shareholders and must act, in any circumstance, in the corporate interest of the Company.

Each director must inform the Board of Directors of any known issue which appears to be of such a nature as to affect the interests of the Company.

Article 2 – Respect of Laws and By-laws

Except for legal or regulatory exceptions, or exceptions stemming from the articles of association, each director must personally be a shareholder and must at least own the number of Company shares required by the Company By-laws. If the director does not own the required shares when taking up his or her function, such shares must be acquired within the three months following his or her appointment. If, following the delay of three months, the director does not own the required shares, he or she is automatically considered as having resigned.

Before accepting his or her function, each director must fully acquaint himself or herself with his or her duties and obligations and must ensure that he or she is fully aware of the general obligations as well as those that are specific to his or her responsibilities. He or she must particularly acknowledge any legal and regulatory provisions, provisions of the Company’s by-laws, the Internal Rules of the Board of Directors, and this Charter and any amendments brought to it by the Board of Directors, as well as the recommendations of the AFEP-MEDEF Code of Corporate Governance for listed companies.

If the director is a member of a committee, he or she must also acknowledge any internal operating rules particular to such committee.

Article 3 – Objectivity – Conflict of Interest

(a) Objectivity

Each director undertakes to preserve in all circumstances, his or her objectivity of analysis, judgment, decision and action.

He or she does not tolerate being influenced by any factor outside of the corporate interest, which he or she undertakes to protect.

He or she commits to informing the Board of any known issue which appears to be of such a nature as to affect the interests of the Company.

(b) Conflict of Interest

A conflict of interest arises when a director or a member of his or her family could personally benefit from the way the Company's business is conducted, or could maintain a relationship of any kind with the Company, its affiliates or its management that could compromise the director's judgment (particularly as a client, supplier, business banker, legal representative).

The director undertakes to strictly avoid any conflict that may exist between his or her own moral and material interests and those of the Company. Without prejudice to the formalities of previous authorizations and supervision prescribed by the law and the by-laws, he or she must inform the President of any conflict of interest, even a potential one, within which he or she may be directly or indirectly involved. In the case where he or she cannot avoid having a conflict of interest, he or she must abstain from participating in any discussion or decision on such matter. The President may ask the director not to attend the deliberations. However, he or she would be exempted from this rule if at least a majority of the directors would have to abstain from participating or voting if this were applied.

The director must therefore immediately communicate to the President any agreement concluded between himself or herself or a company for which he or she is the director or within which he or she holds, directly or indirectly, a significant shareholding or within which he or she is directly interested, and the Company or one of its affiliates, or that was concluded by an intermediary.

In order to avoid any conflict of interest, each director is required, during the entire duration of his or her functions, to obtain prior, written approval from the President of the Board for the following operations:

- accepting or exercising any mandate as manager or director in another company exercising an activity in direct competition with that of the Atos Group;
- taking or preserving any financial interests (except in respect of the purely financial investments of listed securities that do not result in a holding of more than 5% of the share capital, and in compliance with the procedures stipulated by Atos with respect to Inside Information and insider trading) or, to the extent that such interests may be prohibited under applicable law, taking or preserving family connections with partners, clients, suppliers or competitors of Atos (that were disclosed to the Company prior to the beginning of these functions). Subject to applicable laws, any conflict of interest or current interest having not been previously authorized must be immediately disclosed; and
- being employed by or receiving any direct or indirect remuneration from a company having an activity directly in competition with that of Atos.

Article 4 – Corruption and Misappropriation

No form of corruption or misappropriation will be tolerated.

Any offer of money or any offer of goods or services in order to obtain a commercial advantage constitutes corruption. Any dishonest or illegal practice affecting the commercial integrity of Atos or that of its assets constitutes misappropriation. Corruption and misappropriation may be implied as the offering or accepting of a sum of money or gifts or any other advantage (such as free accommodation, for example) in exchange for favors (from partners, clients, suppliers or competitors). As an example, this may include:

- an offer of money to a director of the Company for the purpose of winning a contract;
- an offer of payment made by a director of the Company in order to obtain a certain result;

- acceptance by a director of a gift of any nature that would compel him or her to change his or her conduct.

It is prohibited to enter into a contract on behalf of Atos where the services provided are not clearly defined in a contract and where the usual invoicing methods or usual bank accounts are not used. The Company shall not consider itself bound where the services have not been actually provided.

Gifts of low value (not exceeding a hundred Euros, the value being lower than this amount on the basis of local customs within business ethics and such gifts being of any nature – meals, tickets to shows or objects of low value, etc.) shall not automatically be considered as prohibited, unless they are offered or received with the purpose of violating the principles explained above.

Article 5 – Duty of Loyalty

Each director is under an obligation of loyalty towards the Company.

He or she shall not take any initiative that could harm the interests of the Company or other companies or entities within the Group and shall act in good faith in all circumstances.

He or she shall not take on any responsibilities on a personal basis in any company or business practicing any activities in direct competition with those of Atos without prior approval of the President of the Board of Directors and of the President of the Remuneration and Nominations Committees.

Article 6 – Duty and Freedom of Expression

Each director has the duty to clearly express his or her questions and opinions.

He or she must make known any instance where he or she is in disagreement.

Article 7 – Participation in the work of the Board of Directors – Assiduity - Professionalism

Each director must devote the necessary time and attention to the preparation of the Board of Directors' meetings as well as, where applicable, the committees of which he or she is a member.

He or she must be diligent and must, unless prevented from doing so, participate in every Board of Directors' meeting and, where applicable, the committees of which he or she is a member, as well as the shareholders' general meetings.

He or she shall keep informed about the work and specifics of the Company, including its stakes and values, by inquiring, if necessary, its Management.

The director shall request any documents that he or she considers essential to be able to deliberate with full knowledge on the issues on the agenda of the Board of Directors' meetings. If a director considers that he or she does not have full knowledge of the facts, it is his or her duty to inform the Board and to demand any essential information.

He or she shall make a point of keeping updated on the knowledge that enables him or her to perform his or her functions.

Article 8 – Confidentiality

The Directors are required to uphold professional secrecy, which exceeds the mere obligation of discretion provided for in the law, in regards to any information gathered during or outside of the

Board of Directors' meetings, according to the conditions provided in Article 12 of the Internal Rules of the Board of Directors.

Article 9 – Inside Information – Security Transactions

Each director shall strictly refrain from using any Inside Information (as defined in section 01 of the Stock Market Code of Conduct, as well as in applicable laws and regulations) to which he or she has access, to his or her personal advantage or to the advantage of anyone else. In particular, where a director holds information that has not yet been rendered public, he or she shall refrain from using it to carry out, or getting a third party to carry out, any transaction involving the Company's securities.

He or she shall only carry out transactions involving the Company's securities in compliance with the legal and regulatory provisions pertaining thereto.

Each director undertakes to observe and strictly respect the provisions of the Company's Stock Market Code of Conduct, of which the text is attached as a Schedule to the Internal Rules of the Board of Directors.

Article 10 – Contribution to Good Governance

Each director shall contribute to the collegiality and effectiveness of the work of the Board of Directors and the specialized committees. He or she shall express any recommendation that appears to be of a nature as to improve the functioning of the Board of Directors, particularly during any periodical evaluation of such. He or she shall accept the evaluation of his or her own performance as a member of the Board of Directors.

He or she undertakes, along with the other members of the Board of Directors, to ensure that any supervisory assignments be accomplished efficiently and without hindrance. In particular, he or she ensures that procedures are in place within the Company that verifies whether the laws and regulations are being complied with.

Article 11 – Executive office and employment contract – No overlapping

When an employee becomes the main executive officer of the Company, he shall undertake to terminate his employment contract with the company (if such employment contract existed), either by contractual termination or resignation. This provision does not apply to an employee who is appointed for such office as director representing the employee shareholders or director representing the employees.

Article 12 – Business Ethics

In addition to the specific examples of breaches of business ethics provided in the present Charter, some basic principles of business ethics that Atos intends to apply to its relationships between and with its directors, colleagues, clients, suppliers, partners and any other third party are listed here below:

- Every director and work colleague in Atos shall be treated equally with respect to his or her results and qualifications, without consideration of race, nationality, gender, age, disability or other characteristic.
- No director shall act in such a way as to influence, in an irregular manner, a candidate for political office, an elected representative or a public administrator, while carrying out his or her duties.
- No director shall participate in an agreement, an understanding or a joint activity that would violate the laws and regulations applicable to anti-competitive practices. An anti-competitive practice exists when there is an agreement between competitors to share clients, contracts or price-fixing arrangements.
- Any director who, in the course of his or her work, uses the services of an independent third party shall ensure that the remuneration paid corresponds to the services rendered and that no remuneration is paid to any person (individual or corporate entity) other than the person who provided the services or within a country other than the country of residence or registration of the service provider.
- The directors of the Company shall comply with, in all circumstances, the laws and regulations of the countries in which Atos operates.

The above list is not exhaustive and other behaviors may be considered to be in breach of the present Charter. In case of doubt, directors should consult the legal department of Atos.

Schedule 2 – *Ring fencing* measures

RING FENCING MEASURES

**adopted by resolution of the Board of Directors
dated January 21, 2024**

This Schedule defines the measures which apply, in addition to the provisions provided for in the Internal Rules, to members of the Board of Directors appointed on a proposal of a Competing company (as defined below) of the Company and linked to this Competing company by an employment contract, an executive or director’s term of office, or any other factual circumstance likely to alter its independence with regard to the Company (“**Members Linked to a Competing company**”).
2. The notion of competing company refers cumulatively to (i) any company which is directly involved in one or more product or service markets in which the Atos Group is involved and (ii) any company belonging to the same “company”, within the meaning of competition law, as the latter (“**Competing company**”).
3. The notion of sensitive information refers to strategic information, within the meaning of competition law, which is non-public, non-aggregated and recent, and which relates to the activities of the Atos group or of the Competing company on the market(s) where the latter are in competition (the “**Sensitive Information**”). Sensitive Information includes, but is not limited to, information relating to prices, costs, margins, sales volumes and market share, suppliers and customers, tenders, detailed business plans, detailed budgets, detailed performance and results and, where applicable, any Sensitive Information included in the presentation of major acquisition or disposal projects.

ARTICLE 2 – MEASURES APPLICABLE TO MEMBERS LINKED TO A COMPETING COMPANY

5. Members Linked to a Competing company shall not solicit or receive Sensitive Information from any other member of the Board of Directors.

(b) *Participation of Members linked to a Competing company in meetings of the Board of Directors*

9. The minutes of the Board of Directors meetings shall indicate when Members Linked to a Competing company have left the meeting.

ARTICLE 3 - IMPLEMENTATION AND ENFORCEMENT OF RING FENCING MEASURES

10. By adhering to the Company’s Internal Rules, the members of the Board of Directors acknowledge and accept the provisions of this Schedule.

11. Prior to their appointment, each Member Linked to a Competing company shall adhere to the *Ring fencing* measures, by means of an individual written commitment, the model of which shall be provided to them by the Company.
12. The Secretary of the Board of Directors is responsible for ensuring that these *Ring fencing* measures are properly implemented.

Schedule 3 – Stock Market Code of Conduct

STOCK MARKET CODE OF CONDUCT

Updated on March 26, 2026

Stock Market Code of Conduct

March 2026

ATOS
GROUP

Why this Code of Conduct?

Atos is a listed company

Atos SE (the “Company”) is a company listed on the Euronext Paris market. As such, Atos SE, as well as its employees and corporate officers and those of any subsidiary, are subject to compliance with **stock market regulations relating to market abuse**.

These regulations are based on the **principles of transparency and equal treatment** between shareholders and investors, so that all buyers and sellers of financial instruments of a listed company have access to the same information about that company at the same time.

The Company is therefore required to regularly disclose certain information to the market and to ensure that its employees do not use or disclose information that could have an impact on the value of the Company’s securities.

Each person’s behavior may have consequences for the reputation of the Company and the Group in the eyes of its partners and the public.

Scope of application

Entities concerned: all legal entities within the Group.

Employees concerned: all Group employees, with specific situations described in section 2 of this Code.

Objectives of this Code

This Stock Market Code of Conduct (the “Code”) aims to:

- **inform employees** of the applicable rules, particularly regarding the management of inside information, the prevention of market abuse, and the regulation of transactions in financial instruments;
- **remind employees of the sanctions**, whether administrative or criminal, associated with non-compliance with these rules; and
- **define additional internal measures** implemented to help prevent insider trading.

This Code was adopted on December 17, 2025, and subsequently updated on March 26, 2026.

The rules relating to “Securities” in this Code also apply to bonds issued by Atos.

01. Concepts and principles

01 Concepts and principles

“Inside Information”

An “Inside Information”, within the meaning of the MAR Regulation, refers to:

- 1) information of a precise nature;
- 2) which has not been made public;
- 3) which directly or indirectly concerns Atos Group and/or Atos Securities; and
- 4) which, if made public, would be likely to have a significant effect on the market value of Atos shares or other related financial instruments.

Information of a precise nature

Information is deemed to be precise if it relates to an event or project that has a certain degree of certainty, i.e., is sufficiently defined between the parties to have a reasonable chance of success, and has a certain degree of precision, i.e., is sufficiently precise to allow a conclusion to be drawn about its possible effect on the stock price.

Important: the existence of uncertainties regarding whether an event will occur or whether a project will ultimately be carried out does not preclude such information from being considered sufficiently precise.

Information likely to have a significant effect on the Securities' market value

This refers to information, whether positive or negative, that a reasonable investor would likely consider as part of the basis for making investment decisions to buy or sell Atos Securities.

End of Inside Information

Information ceases to be inside information (i) once it has been made public by Atos Group through a press release, or (ii) once it becomes irrelevant (for example, if the project in question is abandoned). Publication of rumors in the press or in any other media relating to Inside Information, if not officially confirmed by the Company, does not cause such information to lose its inside nature.

Illustrative examples of Inside Information (non-exhaustive)

Information relating to the Group's outlook or situation, or to the expected evolution of the Company's Securities; the issuance of securities by the Company; significant acquisitions or disposals; material changes in the financial position or operating results; the signing of major new contracts or the launch of new products or services; or any change in the dividend distribution policy, etc.

“Insider”

An insider is a person who holds Inside Information.

“Market Abuse”

The applicable regulations provide for three distinct types of market abuse:

- **Insider trading**, which consists of using Inside Information to carry out a transaction involving Atos Securities.
- **Unlawful disclosure of Inside Information** to a person outside the normal course of employment, profession, or duties, whether or not that information was used to carry out insider trading.
- **Market manipulation**, which includes:
 - *price manipulation*, i.e., a transaction or behavior that gives or is likely to give misleading indications about a financial instrument or sets its price at an abnormal or artificial level; and
 - the *dissemination of false information*, i.e., the disclosure of information that gives false or misleading indications about the situation or prospects of an issuer or the price of a financial instrument or fixing the price of the latter at an abnormal/artificial level.

In addition to mechanisms for preventing stock market offenses, this Code focuses on the first two types of market abuse, which carry the highest risk of occurrence for Atos and its Employees.

02. Obligations

02 Obligations

What are the Company's obligations?

Identifying whether information is Inside Information

Atos must assess, in practical terms, whether an event, a project, or any piece of information may qualify as Inside Information. Atos Group has set up a **MAR Committee** whose role is, notably, to identify and classify Inside Information within the Group by analyzing the information submitted to it. The permanent members of this committee are the following executives: the Group Chief Financial Officer, the Group General Counsel, and the Head of Investor Relations. Other Group executives may be invited to MAR Committee meetings to present a specific project or event. The MAR Committee's operating procedures are defined in an internal procedure.

General rule: Atos must immediately publish any information classified as Inside Information

Atos must immediately publish any information that the MAR Committee has classified as Inside Information. Publication must comply with certain formal requirements ("effective and complete dissemination", i.e., free and simultaneous dissemination throughout the European Union, to regulators and to as wide an audience as possible). The press release is also posted on the Atos Group website.

Exception: Atos may decide to delay the publication of Inside Information if certain conditions are met

- 1) First condition:** immediate publication of the information is likely to prejudice Atos's legitimate interests.
 - Examples: (i) Atos is conducting negotiations whose outcome could be compromised by immediate publication; (ii) the information concerns a decision that legally requires the prior authorization of the Board of Directors.
- 2) Second condition:** the delay in publication is not likely to mislead the public. If Atos had previously published information that differed from the Inside Information, delaying the publication of the Inside Information would mislead the public. Consequently, it is not possible to delay the publication of a profit warning.
- 3) Third condition:** once the decision to delay the publication of the Inside Information has been made, Atos must take all necessary measures to ensure the confidentiality of this information. This means, in particular, that Atos must draw up a "list of insiders".

Atos must inform the AMF of any delay in the publication of Inside Information immediately after its publication.

Maintaining an "insider list" and informing the persons on this list

Atos must **establish a separate "insider list"** for each piece of Inside Information. The Company must notify Group Employees and external service providers concerned of their inclusion on the list and the obligations and sanctions associated with it. The persons concerned must acknowledge receipt. Insider lists are drawn up in a specific format and with regulated content (including personal information for each insider). Atos must keep the insider list up to date and communicate it to the AMF upon request. Insider lists are kept by the Company for at least five years after they are drawn up or updated.

The absence of a person's name on these lists does not prejudice their possible status as an insider and does not exempt them in any way from complying with legal and regulatory provisions.

02 Obligations

Persons with Access to Inside Information

Any person who holds Inside Information becomes an “insider”. The Atos Legal Department notifies the insider that they are **included on a list of insiders** specific to this Inside Information and informs them of the obligations that this entails. The insider must comply with the following obligations:

Do not disclose Inside Information

Insiders must not share Inside Information with anyone, even within the Group. If this information must nevertheless be disclosed to someone for the purposes of their work, the insider must notify the Group’s Legal Department so that this person can be added to the list of insiders. Insiders must also avoid discussing it in public or with friends and family, protect all documents containing this information, and limit its distribution to the strict minimum. More generally, they must not publish or relay information (or spread rumors) that could give a false or misleading picture of the Group, its financial situation, or its prospects.

Do not engage in or attempt to engage in insider trading

Insiders must refrain from carrying out or attempting to carry out, directly or indirectly, on their own behalf or on behalf of others, on or off the market, any transaction involving Atos Securities before the Inside Information has been made public.

Do not recommend or encourage another person to engage in insider trading

Insiders are strictly prohibited from recommending (or inducing) any person to carry out, or cause another person to carry out, a transaction involving Atos Securities based on Inside Information. The use of recommendations or inducements constitutes insider trading if the person using the recommendation or inducement knows, or should know, that it is based on Inside Information.

Completing the required formalities

Insiders must complete the following two formalities: (1) provide, complete, or update all personal information required by regulations (as requested in the notification sent to them) and (2) acknowledge receipt of the notification (which mentions applicable obligations and penalties).

Transactions in Atos Securities are interpreted broadly. They include, for example:

- the acquisition or disposal of Securities, immediately or at a future date, on or off the market
- entering into a promise to acquire or sell Securities
- trading in derivatives with Securities as the underlying asset
- hedging transactions that have the effect of acquiring or transferring the economic risk associated with Securities
- the subscription or purchase of shares through the exercise of stock options, even if not followed by the sale of the shares obtained
- the cancellation or modification of an order placed

As a reminder, “Securities” include shares as well as any bonds and derivative instruments.

02 Obligations

Persons with Access to Sensitive Information

What is Sensitive Information?

When information is particularly confidential and sensitive but does not (or does not yet) meet all the criteria for Inside Information, Atos may decide to classify this information as “Sensitive Information” and open a “confidentiality list” or a “Sensitive Information list”. The person is then notified by the Legal Department of their inclusion on this list.

What is the purpose? Unlike the insider list, which is required by law, this list is a voluntary initiative to adopt best practices in the prevention of market abuse. It is a preventive measure that ensures the confidentiality of Sensitive Information and the protection of the individuals concerned, and which may serve, if necessary, as a prerequisite for the creation of a future insider list.

What are the consequences? Those registered undertake to comply with a set of rules relating to their access to Sensitive Information (see below). These rules, which are very similar to those applicable to insiders, remain in force until the information has been made public or Atos has closed the list.

Until when? The confidentiality list may be closed in three cases: (1) the information is no longer sensitive, (2) the Sensitive Information has been made public, (3) the Sensitive Information is subsequently classified as Inside Information. In all cases, a notification of the closure of the confidentiality list is sent to each person concerned.

What are the applicable obligations?

Do not disclose Sensitive Information

The person must not share Sensitive Information with anyone, even within the Group. If this information must nevertheless be transmitted to someone for the purposes of their mission, the person must notify the Group's Legal Department so that this person can be added to the confidentiality list. The person concerned must also avoid discussing it in public or with relatives, protect all documents containing this information, and limit its dissemination to the strict minimum.

Do not carry out or attempt to carry out transactions on the Securities or recommend or encourage another person to carry out transactions on the Securities

The person must refrain from carrying out or attempting to carry out, directly or indirectly, on their own behalf or on behalf of others, on the market or off the market, any transaction involving Atos Securities before the Sensitive Information has been made public or Atos has closed the confidentiality list.

Atos also requires that the person refrain from recommending (or inducing) any person to carry out, or have another person carry out, a transaction on Atos Securities based on this Sensitive Information.

02 Obligations

Persons affected by Closed Periods

The regulations provide for a **preventive mechanism relating to the establishment of “Closed Periods”** to regulate the sensitive period of preparation of the Group's financial results, during which sensitive accounting and financial information is likely to circulate. During these periods, a number of persons are prohibited from trading in Atos Securities.

What are the Closed Periods?

Atos has defined the following Closed Periods:

- **6 weeks** prior to the publication of **annual** financial results;
- **30 calendar days** prior to the publication of **half-yearly** financial results;
- **15 calendar days** prior to the publication of **quarterly** financial information.

Who is affected?

1. The following executives: members of the Atos Board of Directors; the Chairman and Chief Executive Officer, Chief Executive Officer and Deputy Chief Executive Officers, where applicable; members of the Group Executive Committee (or any other management body that would replace the Group Executive Committee with the same prerogatives and role).

2. Individuals considered as “sensitive”, as listed by Atos and regularly updated. These employees include the following:

- senior managers, i.e., persons who have regular access to inside information directly or indirectly concerning the company and the power to make management decisions concerning the future development and strategy of the company;
- all persons who have regular or occasional access to inside information. This includes, in particular, persons involved in the preparation of accounts and/or the publication of the Group's financial information.

Individuals included on the Closed Periods list are informed by the Legal Department. They receive a notification informing them of their inclusion on the list and their obligations and providing them with the applicable timetable for the current year.

What are the resulting obligations?

During the four Closed Periods, the persons concerned are strictly prohibited from carrying out any transactions, directly or indirectly, involving Atos Securities. With Atos' authorization, certain exceptions may apply in accordance with the regulations in force (exceptional circumstances; specific features of the proposed transaction). All requests must be addressed to the Group's Legal Department.

During these periods, it is also recommended that no new information about the Company's business performance and results be disclosed to persons outside the Company.

02 Obligations

Persons with managerial responsibilities (PDMR)

Who is affected?

The regulations set out specific obligations for persons *discharging managerial responsibilities* (PDMRs).

Under these regulations, the PDMRs of the Atos Group are: (1) the members of the Atos Board of Directors, (2) the Chairman and Chief Executive Officer (or, where applicable, the Chief Executive Officer and the Deputy Chief Executive Officer(s)), (3) the members of the Group Executive Committee.

As soon as a person is classified as a PDMR, Atos notifies them of their obligations. The Legal Department keeps the list of PDMRs up to date and informs the AMF of any changes.

What are the obligations applicable to PDMRs?

Obligation No. 1: Report all securities transactions to the AMF and Atos

1) Who is subject to the reporting obligation?

- PDMRs directly; and
- Their "*closely related persons*": spouses or partners considered equivalent to spouses; dependent children (in France, children over whom the PDMR exercises parental authority, or who usually or alternately reside with them, or for whom they have effective and permanent responsibility); a parent or relative who has been living in the PDMR's home for at least one year; a legal entity whose management responsibilities are exercised by the PDMR or by a person who is directly or indirectly controlled by the PDMR or who has been set up for the benefit of the PDMR, or whose economic interests are substantially equivalent to those of the PDMR.

PDMRs must notify the Company of the required information relating to their closely related persons and inform them of their reporting obligations.

2) Which transactions are concerned?

The transactions covered are broad in scope. The following transactions are examples, but are not exhaustive: acquisition, disposal, short sale, subscription or exchange, loan, donation, etc. An indicative list is provided in the [Appendix](#) to this Code.

3) From what threshold does the reporting obligation apply?

The reporting obligation only applies when the total amount of transactions carried out **during the calendar year exceeds €50,000** (the threshold was previously set at €20,000). Transactions carried out before the threshold is reached do not have to be reported.

4) What is the deadline for reporting?

The declaration must be sent to the AMF **within three business days** of the date of the transaction, via the "Onde" extranet accessible on the AMF website. Declarations will be made public on the AMF website.

 PDMRs are invited to notify the Legal Department of any transaction. The Legal Department may assist them or submit declarations to the AMF on their behalf.

Obligation No. 2: Hold Atos shares in registered form

The Chairman and Chief Executive Officer (or Chief Executive Officer) and directors of Atos are required to register all Atos shares they hold or may acquire in registered form. The same obligation applies to the spouses and minor children of these individuals.

02 Obligations

Beneficiaries of performance shares

Specific obligations apply to persons who have benefited from free performance share plans.

Compliance with Closed Periods

In accordance with the provisions of the French Commercial Code, beneficiaries of performance shares **may not sell them within 30 calendar days prior to the publication by Atos of its annual and half-yearly results** (i.e., application of two Closed Periods per year). This obligation applies to all beneficiaries of performance shares.

If, in addition, a beneficiary of performance shares has been informed by the Company that they are on the list of persons subject to the Closed Periods defined by Atos, then the four Closed Periods apply to them (see the section “Persons affected by Closed Periods” above).

Prohibition on the use of hedging instruments

Beneficiaries of performance share plans may not enter into financial hedging transactions on Atos shares during the entire term of their employment contract or corporate office. The financial transactions covered by this prohibition include forward sales, short sales, the purchase of put options, and the sale of call options, whether settlement is in cash or by delivery of securities.

03. **Sanctions**

03 Sanctions

Criminal, administrative, and disciplinary sanctions

Violation of any of the obligations set out in this Code may constitute one of the forms of “market abuse” provided for in the MAR Regulation.

Market abuse may constitute a criminal offence (“*délit*”) or an administrative infringement (“*manquement*”). A coordination mechanism exists to organize consultation between the French National Financial Prosecutor’s Office (Parquet National Financier – PNF) and the AMF to determine which enforcement route will be pursued.

Criminal sanctions ⁽¹⁾

For individuals:

- 5 years’ imprisonment (or 10 years when the offense is committed as part of an organized group); and
- A €100 million fine, which may be increased to up to ten times the amount of the benefit derived from the offense, without the fine being less than that benefit.

For legal entities:

- A €500 million fine, which may be increased to up to ten times the amount of the benefit derived from the offense, without the fine being less than that benefit.
- The fine imposed on a legal entity may be increased to 15% of its total annual turnover as shown in its latest corporate accounts (or, where applicable, consolidated accounts).

Administrative sanctions ⁽²⁾

The AMF Enforcement Committee (Commission des sanctions) may impose financial penalties for market abuse infringements.

The amount of this administrative sanction may be up to €100 million, or ten times the amount of any profits made (for individuals or legal entities) and up to 15% of total annual turnover (for legal entities).

These penalties may be increased by up to 10% of their amount in order to finance assistance to victims.

Disciplinary sanctions

In addition, any violation of this Code and/or the rules relating to insider trading and misconduct does not preclude disciplinary measures that may be taken within the Group, up to and including the dismissal or termination of the person concerned.

(2) Article L. 621-15 of the French Monetary and Financial Code.

Indicative list of transactions in securities subject to reporting requirements by PDMRs and their closely related persons

They also include (Article 19.7 of Regulation No. 596/2014 on market abuse):

- the pledging or lending of financial instruments by a person discharging managerial responsibilities or a person closely associated with them, or on their behalf (it being specified that a pledge or similar security interest in financial instruments linked to the deposit of financial instruments in a securities account does not have to be notified, provided that such pledge or similar security is not intended to secure a specific line of credit);
- transactions carried out by persons who organize or execute transactions on a professional basis or by another person on behalf of a person exercising managerial responsibilities or a person closely associated with them, including where discretionary authority is exercised (however, transactions executed relating to shares or debt securities of an issuer, or derivatives or other financial instruments related thereto, by managers of a collective investment undertaking in which the person exercising managerial responsibilities or a person closely associated with that person has invested are not subject to the notification requirement if the manager of the collective investment undertaking exercises complete discretion, which excludes the possibility for the manager to receive instructions or suggestions on the composition of the portfolio, directly or indirectly, from the investors of that collective investment undertaking);
- transactions carried out under a life insurance policy, as defined in Directive 2009/138/EC of the European Parliament and of the Council, where:
 - the policyholder is a person discharging managerial responsibilities or a person closely associated with him, as referred to in paragraph 1;
 - the investment risk is borne by the policyholder; and
 - the policyholder has the power or freedom to make investment decisions regarding specific instruments contained in that life insurance policy or to execute transactions regarding specific instruments contained in that life insurance policy.

However, transactions involving financial instruments linked to the issuer's shares or debt securities are not affected if, at the time of the transaction, one of the following conditions is met (amendment resulting from Regulation No. 2016-1011 of June 8, 2016):

- the financial instrument is a unit or share in a collective investment undertaking in which exposure to the issuer's shares or debt securities does not exceed 20% of the assets held by that collective investment undertaking;
- the financial instrument provides exposure to a portfolio of assets in which exposure to the issuer's shares or debt securities does not exceed 20% of the portfolio's assets;
- the financial instrument is a unit or share of a collective investment undertaking or provides exposure to a portfolio of assets, and the person exercising managerial responsibilities or the person closely associated with them does not know, and could not reasonably be expected to know, the composition of the investment or exposure to such a collective investment undertaking or portfolio of assets with respect to the issuer's shares or debt securities, and furthermore has no reason to believe that the issuer's shares or debt securities exceed the thresholds set out in the preceding indents.
